

Certificate of Ownership:

Dogleg Right will issue a Certificate Of Ownership (CO²) with each Custom MACHINE Putter. Each CO² will reference the details of the putter as it was produced and sold to the original purchaser, including the order number, customer number and putter serial number, as well as special marks and features as noted above.

Each Custom MACHINE Putter is unique, and no two are alike, as all bare distinctive hand made marks, grinds and finishes. All Custom orders must recognize that the Dogleg Right team must maintain some artistic discretion in order to ensure the uniqueness of each Custom putter, especially regarding placement and alignment of stamps, peen marks, grinds, etc..

We hope you will enjoy your special MACHINE Putter for many years to come. Please do hesitate to contact us if you have any questions on the finish or maintenance of your putter.
